Dear Brothers and Families,

**Why is it important to have an Annual Insurance Review?**

As a licensed insurance agent in the State of California and with the Knights of Columbus, I take pride in offering my clients life insurance reviews, such as the following review of The Knights of Columbus (KofC), to equip my clients with knowledge to help them assess how their insurance holdings are doing and to make the best decision on other coverage they may desire. It is my goal is to align each of my clients with the best program of insurance to fulfill their needs and desires.

Review of Knights of Columbus: The Knights of Columbus is one of the more recognized names in the insurance industry. Founded in the basement of St. Mary's Church in New Haven, Connecticut in 1882 by Father Michael J. McGivney, the company has flourished over the years in providing excellent life insurance policy options for people of all backgrounds.

The foundation of the company was due to the large number of immigrants that were entering the United States at the time. Father McGivney was looking for a solution that would address the unfavorable working conditions that many of the immigrants faced. By pulling together the Catholic men in the community, they could provide proper insurance for those who did not have the means to obtain such support.

That is the foundation of the Knights of Columbus philosophy which has stayed true throughout the many changes the company has undergone since that time. The charity and unity of the message Father McGivney delivered on that day has resulted in a service that is now enjoyed by millions. Find out more about what the Knights of Columbus has to offer you, providing for financial security for you and your family.
